

HOW TO USE OUR

NEW EXPRESS CLAIM SERVICE IN 6 SIMPLE STEPS:

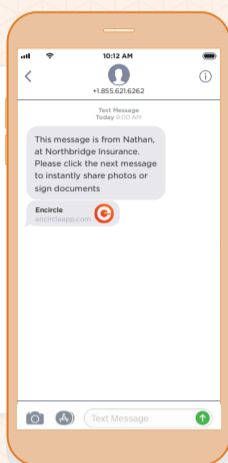

Auto accidents can be a hassle. While working through the process of reporting the problem and resolving your claim, you could be left without a vehicle for weeks. That's why we've developed a new digital Express Claim service, so that your auto appraisal can be wrapped up in as little as half a day, and you can be back on the road quicker than ever! Here's how it works:

1

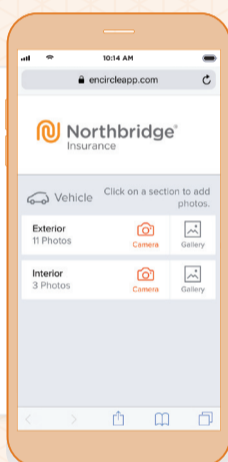

Oh no! Have you been in a fender bender? **Give our claims team a call!**

2

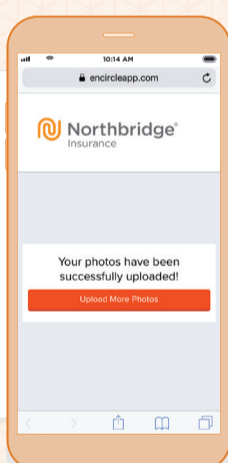

Your adjuster will text you a unique link to the Express Claim portal directly to your smartphone. **Open the link.**

3

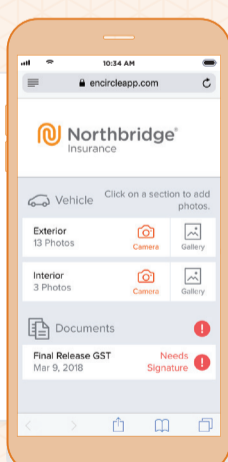

Once you've opened the link, **snap some photos** of the damage to your vehicle and tap to **send them directly to your claims adjuster in real time!**

4

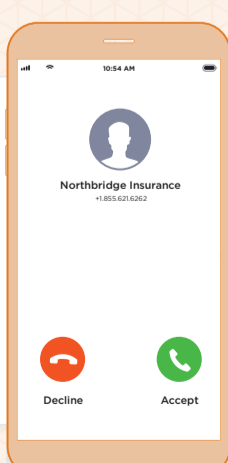

While you wait for your estimate to be complete, your adjuster can **help you find one of our preferred collision centers** for repairs, and arrange a rental if necessary.

5

Your **appraisal report will be sent directly to you** via email, along with copies of your photos.

6

You'll receive a phone call from your adjuster to outline your settlement details. **Sit back and relax, you're done!**
